DEDICATED TO MRS. NADEAU

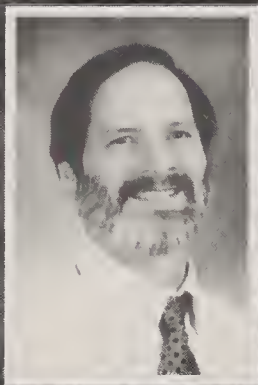

As we enter a new millennium, it is only appropriate that we dedicate our yearbook to Mrs. Nadeau. We realize that science and technology play a major role in our daily lives. Mrs. Nadeau helps us to learn and understand the world around us. Every day she shows us new things, from the structure of an atom to friction and motion, in an exciting way. She strives to make class both fun and educational. People say that cells are the "building blocks of life" . . . Mrs. Nadeau is our cell.
